About The Book: This revised and updated edition of Nesheim's underground Silicon Valley bestseller incorporates twenty-three case studies of successful start-ups, including tables of wealth showing how much money founders and investors realized from each venture. The phenomenal success of the initial public offerings (IPOs) of many new internet companies obscures the fact that fewer than six out of 1 million business plans submitted to venture capital firms will ever reach the IPO stage.

High Tech Start Up, Revised and Updated | Book by John L ...

9. Venture capital investors own a large 70 percent of the start-up by the time it goes public: 70 percent of hardware companies, 60% of software companies and 50% of Internet companies. 10. The personal costs of doing a start-up are high, affecting families and friends as well as individuals. Fear and burnout are common.
