Internet and Technology Law Desk Reference is a non-fiction book about information technology law, written by Michael Dennis Scott. The book uses wording from legal cases to define information technology jargon, and gives citations to individual lawsuits. Scott received his B.S. degree from Massachusetts Institute of Technology and graduated with a J.D. from the University of California, Los Angeles. He has taught as a law professor at Southwestern Law School. The book was published by Aspen Law

The law needs to be changed, and we need to change.” Right now, there are a handful of ways victims can address their attackers through the legal system, both civilly and criminally.

What the Law Can (and Can't) Do About Online Harassment

Invasion of privacy. New Jersey recognizes all four common law invasion of privacy claims: intrusion upon solitude or seclusion, public disclosure of private facts (e.g., unreasonable publicity given to one's private life), false light privacy (e.g., publicity that normally places the other in a false light before the public), and appropriation of one's name or likeness (*Bisbee v.*
