The authors focus their attention on "the peculiar ways in which biopower deploys force and violence" (Dillon and Reid 2001, 41) and the ways that "global biopolitics operates as a strategic game in which the principle of war is assimilated into the very weft and warp of the socio-economic and cultural networks of biopolitical relations" (Dillon and Reid 2001, 42).

## **Biopolitics and Globalization | Global South Studies, U.Va.**

Although the Greek communists were defeated in the Civil War, the biopolitics mostly accorded to the communist Eastern European countries than the Western ones. The main reason behind this trend was the similarity in the demography of Southeastern countries, including Greece.

## **Issues of biopolitics of reproduction in post-war Greece ...**

Biopolitics, he argues, refers to a historical transformation and development, beginning in the 17th century, whereby the sovereign right to seize, repress, and destroy life is complemented by a new form of power that aims to develop, optimize, order, and secure life.

The term was coined by Rudolf Kjellén, a political scientist who also coined the term geopolitics, in his 1905 two-volume work *The Great Powers*. Kjellén sought to study "the civil war between social groups" (comprising the state) from a biological perspective and thus named his putative discipline "biopolitics".

Verified Purchase. The prevailing myth is that America is the defender of democracy around the world. In American history, this notion is thought to be especially evident in World War II as America and its allies defended democracy and freedom against fascism. But in *The Politics of War*, author Gabriel Kolko takes a closer look at American foreign policy from 1943-1945 as he examines the motives of the big three - the United States, Great Britain, and Soviet Russia.

Under the auspices of neoliberalism, technical systems of compliance and efficiency have come to underwrite the relations among the state, the economy, and a biopolitics of war, terror, and surveillance. In *Beyond Biopolitics*, prominent theorists seek to account for and critically engage the tendencies that have informed neoliberal governance in the past and are expressed in its reformulation today.

## **(PDF) Global Liberal Governance: Biopolitics, Security and War**

This review explores the various micro-struggles at the heart of the biopolitics of the 'war on terror'. Through a discussion of the ethico-political and aesthetic dimensions of Steve McQueen's *Hunger* and Kathryn Bigelow's *The Hurt Locker*, it critically evaluates questions of humanity, solidarity and conviviality under the most extreme and Manichean situations of occupation and colonialism.

## **Snowflakes on a Scarred Knuckle: The Biopolitics of the ...**

Biopolitics is the fourth, and last, age of security. Security as biopolitics takes on a new political object: human security, understood both at the levels of the individual and the population. Security is no longer merely a question of defending the state's territorial integrity or the citizens' rights.
